FOR IMMEDIATE RELEASE

Axis Accounting Systems Adds Hans Stabell as New Senior Consultant

BRENTWOOD, Tenn. — March 1, 2010— Brentwood-based Axis Accounting Systems, LLC, provider of IT consulting services and enterprise financial software announced today the addition of Hans Stabell as a new Senior Consultant.

Stabell comes to Axis most recently from D1 Technologies where he was the Director of Professional Services and oversaw the SAP Business One practice for the Brentwood-based firm. His prior experience also includes acting as a consultant for LBMC Technologies and ePartners, Inc., as well as implementing Oracle at First Source.

Stabell brings to Axis a wide range of industry expertise which he developed in previous positions during multiple implementations of Microsoft Dynamics GP and SAP Business One for companies including a distributor of farming equipment, a sound equipment distributor, a hospital equipment provider and a leading manufacturer of musical instruments. During these projects, Stabell consistently demonstrated his ability to increase efficiency, visibility, and reporting accuracy for his clients while reducing their project implementation times.

A native Norwegian, Stabell earned both his BA in Business Administration and his MBA from the University of Mississippi after a brief stint in the Norwegian Cavalry.

“I am thrilled to have Hans join our team,” says Greg Lemon, Axis President. “Hans comes to Axis with over a decade’s worth of experience in business consulting having worked with many of the major software publishers. Hans is well known for his technical ability as well as his commitment to customer service.”

About Axis Accounting Systems
